WORK EXPERIENCE

2024 - 2025 3D ENVIRONMENT ARTIST & TECHNICIAN VR SPECIALIST
Virtual Zone/ Alicante-Madrid, Spain

Managed the technical and artistic pipeline for immersive VR experiences. Authored highly optimized 3D environments and procedural materials (Substance 3D), developed custom Unity shaders to maximize framerates, and programmed Python tools to automate workflows. Additionally, handled the technical deployment, live debugging, and system correction of VR applications.

2024 - 2024 3D ENVIRONMENT & PROP ARTIST (INTERN)
Secret6/ Madrid, Spain

Developed high-fidelity 3D modeling, digital sculpting, and texturing for AAA game-ready props. Specialized in creating complex procedural textures and applied advanced UV management and optimization techniques following the games industry pipeline.

2023 - 2024 SOFTWARE DEVELOPER (JAVA)
MetaEnlace/ Murcia, Spain

Developed and maintained backend software solutions using Java. Handled relational databases, engineered complex Oracle queries for efficient data management, and created automated scripts to streamline operations. Entrusted with debugging, refactoring, and optimizing team code to enhance system performance and stability.

EDUCATION

ENVIRONMENT & PROP 3D ARTIST (AAA)
Voxel School
2023 - 2024
